Brief Description of Arguments to be Presented:

It appears the text of the Office action was intended to apply to the claims of 10/733,556 (abandoned) rather than the present

application. Nothing in Aarnio et al. has been cited for the last five lines of claims 1 and 14 (e.g., hangers, vertical movement due

to thermal expansion, accommodation). Similarly, there is no citation of dependent claim elements.

There was also no citation of the claim 21 relationship between the conduit and tube bundles and for the 112(6) limitation.

An interview was conducted on the above-identified application on _____.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
